Real-Life Algorithms

Plant a Seed Worksheet

You can use algorithms to help describe things that people do every day. In this activity, we will create an algorithm to help each other plant a seed.

Cut out the steps of planting a seed below, then work together to glue the six the correct steps, in order, onto a separate piece of paper. Trade your finished algorithm with another person or group and let them use it to plant their seed!

 PUT POT IN SUNLIGHT	 PUT SEED IN HOLE	 HUG AN ELEPHANT
 PUT GLUE ON SEED	 FILL POT WITH SOIL	 POKE HOLE IN SOIL
 WATER POT	 COVER SEED WITH SOIL	 POUR SODA POP IN POT
