

# Teacher Application for Code.org's Computer Science in Algebra (CSinA) Professional Learning Program

---

Pick your district

**Will you be integrating the Computer Science in Algebra curriculum modules into your Math class during the 2016-2017 school year?**

Yes

No

Don't know

Please review the [Computer Science in Algebra Professional Learning Program](#) before answering the following question.

**Are you committed to participating in the entire Computer Science in Algebra professional learning program?**

Yes

No

In order to participate you must be from a partner district, teaching Computer Science in Algebra in the 16-17 school year, and committed to fully participating in Code.org's Computer Science in Algebra Professional Learning Program.

If you are able to make those commitments, go back and change your answers.

## School Information

---

**School Name (Please provide the full, official name of your school)**

---

Please look up your school's NCES code at: <https://nces.ed.gov/ccd/schoolsearch/>. You do not need to fill out all of the fields in the search, simply putting in your zip code will give all the schools in that area.

Once you get to your results, find the NCES School ID (see picture below).

School Information	District Search	Data Notes/Grant IDs	Help
<p><b>School Name:</b>  <input type="text"/></p> <p><b>Street Address:</b>  <input type="text"/></p> <p><b>State:</b>  <input type="text" value="- Any State -"/></p> <p><b>County of District:</b> <a href="#">(Browse)</a>  <input type="text"/></p> <p><b>District Name:</b>  <input type="text"/></p>	<p><b>NCES School ID:</b>  <input type="text"/></p> <p><b>City:</b> <a href="#">(Browse)</a>  <input type="text"/></p> <p><b>Zip Code:</b> <input type="text"/> <b>Distance:</b> <input type="text"/> Miles from Zip</p> <p><b>Phone #:</b>  <input type="text"/> - <input type="text"/></p> <p><b>NCES District ID:</b>  <input type="text"/></p>	<p><b>SEARCH TIP:</b> If you are having difficulty finding your school, try only entering the city, state, and/or a key word in the name.</p> <p><a href="#">Search</a> <a href="#">Clear</a></p>	
<p><b>Additional Characteristics</b></p> <p><b>School Description</b>  Regular <input checked="" type="checkbox"/> Special Education <input checked="" type="checkbox"/> Vocational <input checked="" type="checkbox"/> Other/Alternative <input checked="" type="checkbox"/></p> <p><b>Specific School Type</b>  All <input checked="" type="radio"/> Charter School <input type="radio"/> Magnet School <input type="radio"/></p>			
<p><b>SEARCH TIP:</b> Use the additional characteristics fields in conjunction with any of the School Information.</p> <p>Additional Characteristics</p>			

**School NCES Number**

---

**Principal Name**

<hr/>	<hr/>
First Name	Last Name

**Principal Email**

---

## Teacher Information

**Full Name**

<hr/>	<hr/>
First Name	Last Name

**Your School Email Address**

---

**I will be teaching Computer Science in Algebra curriculum modules as a (check all that apply):**

program integrated into a math class

program integrated into a technology class

---

**To which grades do you plan to teach Computer Science in Algebra? (Check all that apply)**

K-5

6

7

8

9

10-12

Before answering the next question, please review the [Computer Science in Algebra](#) program commitments.

**I will attend the in-person two (2) day summer workshop and 2 follow up school year workshops for Computer Science in Algebra**

Yes

No

**All students should have the opportunity to learn computer science in school**

Strongly Disagree

Disagree

Agree

Strongly Agree

**All students can learn computer science**

Strongly Disagree

Disagree

Agree

Strongly Agree

**I am willing to learn new approaches to teaching in order to engage my students**

Strongly Disagree

Disagree

Agree

Strongly Agree

**Effective teaching of computer science is all about knowing the content**

Strongly Disagree

Disagree

Agree

Strongly Agree

**Computer science is all about programming**

Strongly Disagree

Disagree

Agree

Strongly Agree

**Computer science has a lot to do with problem solving and creativity**

## Principal Approval

---

**The teacher submitting this application has approval to integrate Computer Science in Algebra into one or more of their scheduled classes for 16-17.**

Yes

No

Don't know but I'm in support of the above teacher teaching this class

The technical requirements to teach Code.org's Computer Science in Algebra course are:

1. A General Ed classroom with 1:1 media carts OR Computer lab with 1:1 computers (2:1 can be used for pair programming)
2. We work hard to build an environment that is supported by all modern web browsers on desktops and mobile devices, but you'll have the most success with an up-to-date browser (IE9+, Firefox, Chrome, Safari).
3. Visit these links to make sure your device and browser can support the program requirements:
  - <http://code.org/educate/it>
  - <https://support.code.org/hc/en-us/articles/202591743>

**The teacher submitting this application will have access to the minimum technology requirements when teaching Computer Science in Algebra.**

Yes

No
